

## **PANEVEZIO STATYBOS TRESTAS AB QUALITY POLICY**

Panevezio statybos trestas AB honestly fulfils its obligations – by fostering long-term cooperation and offering time-tested and high-quality construction solutions the company ensures profitable and sustainable business development that creates the value for clients, shareholders and employees.

In the long run, the company aims to become a reputed company in the construction sector in Europe and the first choice of clients, guaranteeing quality and agreed deadlines.

To achieve these targets, we are committed to developing responsible business by applying the principles of total quality management in control of our activities, continually complying with requirements of clients and other interested parties as well as legal requirements, and ensuring the top quality of services provided, thus meeting the needs and expectations of clients. We will continually update our construction machinery, equipment and mechanisms used, and use sustainable building materials.

We will continue to pay particular attention to professional development of employees by improving their competencies and abilities, as well as encourage their involvement in and contribution to effectiveness of the quality management system.

*To implement the provisions of this policy, the top managers of the company each year review and update the targets and objectives, allocate the necessary resources and undertake to periodically review and, if necessary, adjust this QMS policy to make it relevant and appropriate.*

*This policy is published and available to all interested parties at [www.pst.lt](http://www.pst.lt)*
